Create the right first impression

Doors can create just as much of an impression as an expensive piece of furniture in your home. They are seen every day, so try to select a style with features that match the rest of your home as closely as possible. Choosing new doors requires as much care as picking out furniture or decor ... so what to go for?

The style and location of your new door can change the feel and use of the room, to radically improve and transform living spaces. Are you buying a door to secure your home, open up more convenient access to your garden, add some welcome privacy or to reduce noise? What kind of visual effect would you like to achieve?

From bi-fold doors to patio doors, French doors to front or back residential doors, the choice is endless. Available in a range of styles, finishes, glazing options and advanced security features, our high quality PVC-U doors will keep your home warm, quiet and secure.

Take a look at what new first impression you could make.

Keep your home warm, quiet and secure

Feeling safe inside your home is the number one priority.

All of our PVC-U doors come with a range of high-performance security features to give you peace of mind. Every door is fitted with robust hinges and efficient locking mechanisms. Quality operating hardware, coupled with the inherent strength of the frames will ensure that your new door is extremely secure.

Doors are available with multi-point locking systems which lock into the frames in multiple locations, passing through steel keeps and securely fastening into the door frame helping make your home more secure.

To keep your home warm and quiet, a range of double or even triple glazed sealed units are available options, depending on which type of door is selected, to provide excellent insulation, draught proofing and sound reduction -

improving your carbon footprint, reducing your heating bills and keeping the noise out! Doors are thermally efficient and fully weather tested to keep out unwanted draughts and effective drainage channels keep out leaks.

PVC-U doors are virtually maintenance free and require nothing more than a wipe down with a damp cloth to keep them looking in pristine condition. No more sanding, staining or painting!

Residential doors

Stylish front and back door options to compliment every home.

Choose an appealing front or back door to enhance the look of your home. Available in a wide range of colours, designs, glass options and with a choice of matching door furniture - we are sure to have the perfect door for you to make a grand entrance.

Our PVC-U doors come with fully reinforced frames and multi-point locks to ensure maximum security. Doors are available in a range of colours and you have a wide choice of glazing and operating hardware options to complement your home. It is well known that most break-ins are through the back door, therefore security is vitally important. Our PVC-U back doors will keep your home safe and secure, giving you added peace of mind.

PVC-U stable doors are also available, featuring separate top and bottom hinged leaves to provide maximum ventilation without the need to open the whole door, so you can keep your pets and children safely indoors, whilst allowing lots of fresh air into your home.

Choose from a wide variety of door styles, colours, glazing and security options.

Make a grand entrance!

Patio doors & French doors

Custom built for a perfect fit.

Patio doors are designed to enhance any living room, balcony or conservatory. Whether your property is traditional or contemporary in style, town or country in character, patio doors can be fitted to suit and deliver space saving home improvement benefits. Made to measure for your home, they are available in different door panel configurations and feature easy slide panels.

Our PVC-U patio doors are double glazed to ensure your home is both warm and quiet, and fitted with a multi-point locking system to ensure the security of your home. Available in a range of colours and glazing options, patio doors will not only complement your property, but ensure you enjoy panoramic views of your garden all year round from the comfort of your home.

French doors are a charming addition to your home or conservatory, allowing unrestricted access, letting in more light and providing maximum ventilation when fully opened on warm summer days. Available in a range of colours and glazing options, French doors offer you choice, style, warmth and security.

Ensure you enjoy your garden all year round from the comfort of your home.

Made to measure to enhance your home with easy access to garden spaces.

Bi-fold doors

Bring the outside in.

Transform your home with beautiful folding doors and make the most of a lovely garden. Bi-fold doors open up your home and create stylish open plan areas. These versatile doors can be installed wherever you want to transform your home and enhance a conservatory, kitchen or living room. You could install bi-fold doors on your conservatory to open up the whole back elevation of your home for maximum light and space, or install them in your living room as an opening into your conservatory to create one large room.

Bi-fold doors allow the maximum use of space and glide along aluminium top and bottom tracks using stainless steel rollers - making opening and closing effortless. The versatility of our bi-fold doors allows many different configurations, with door leaves concertinaing to one or both sides. This allows you to select a door leaf on one side that opens like a normal entrance door, or two central leaves that open like French doors. You can even choose whether you want them to fold and stack inside or outside your home.

The doors are available in a wide range of colours, so you can match your new doors to the style of your home. High security multi-point locking systems are installed as standard to keep your home safe and secure.

A wide choice of configurations to create the perfect solution for you.

Bi-fold doors allow you to create stylish open plan areas in your home.

Low thresholds & hardware

Designed for ease of use in operation.

We all know that door handles open and close doors, but what we don't realise is how much they play a part in the styling of our home. They can decorate your door in a subtle manner and can give your home character and added finesse. All our high quality door handles have been designed for comfort and ease of operation when in use and are available in a superb range of Gold, Chrome and White finishes for interior and external use.

Our standard door thresholds are perfectly adequate for general use, however many people choose a low threshold to integrate a room more fully with a balcony, conservatory or adjacent garden space. Low thresholds are perfect for wheelchair or pushchair use, or where young children are often running across doorways.

As well as door handles, a choice of hinges and letter plates are available in a range of colours and styles.

Our extensive range of door furniture has been manufactured to the highest standards.

Colour & glazing options

Choose the perfect match to complement your home.

Add warmth and style to your home with a selection from our range of coloured door finishes. White PVC-U is still the most popular exterior and interior choice, but more and more people are personalising their homes to suit a particular style or colour scheme. With a range of 4 real woodgrains and 9 coloured woodgrains to choose from there will certainly be a beautiful finish to complement your home.

Some areas of your home will need to be a little more private than others, such as doors leading to your bathroom, toilet, conservatory or entrance hall.

With our glazing range you can choose a type of glass which will be perfect for its purpose. Each of our popular patterns offers a different level of obscuration, providing you the privacy you require whilst maximising the level of daylight passing through the glass.

A stunning colour finish will add a stylish dimension to your new door.
